Bugfixes

INFORMATION

When opening a project with the new version (2016-17.02), projects of the directly previous version (2016-17.01)

|_| are converted and can no longer be opened with the previous version

|X| are not converted and can still be opened with the previous version

COM Registration

|X| the COM library has been changed and should be registered again
(start the program as ADMIN using „E3.series.exe /register“)

The bug fixes are sorted and listed by designer number(s). This enables you, for example, to easily search for bugs reported to our support office.

Designer-28285	Incorrect connection of conductors after change of options
Designer-28311	The internal device designation is not displayed at XVL export
Designer-28399	When saving a drawing file e3p as database subcircuit errors may be shown 'E - Error in function EvNode\collect_merged_lines(), ret = 6'
Designer-28409	Different behaviour of COM Call 'job.ExportPDF' referring to indexes since version 2015
Designer-28505	No ability to rename device within the device tree when the new name only differs in upper and lower case
Designer-28529	The text space for the assembly information (#1079, #1080, #1081, #1082, #1083) is not filled at symbols of terminals with terminal strips
Designer-28581	Copy&Paste in E3.Redliner may lead to a Panel Auto-Connect of all wires laid on cable duct references
Designer-28619	E3.panel: Possibly incorrect snapping of slots
Designer-28628	E3.ReportScripts: Standard analysis doesn't list all connections
Designer-28677	Columns in sheet reference dialog not completely shown
Designer-28692	E3.ReportScripts: Excel-Connection List is not showing length
Designer-28702	Opening the context menu within Panel takes very long
Designer-28704	The setting "Display elements without variants / options" is after conversion in Multiuser only for one user correctly displayed
Designer-28715	The outer diameter of a hose/tube is entered initially to the parent object (equiv. to conductor and cable) but not updated with Update command
Designer-28716	When changing a model characteristic, entries for attribute values at schematic symbols get lost
Designer-28735	Error 'Error in function int __thiscall CDWGDirectExport::wrPolygon'

	at DXF export or crash
Designer-28745	No ability to open or create MU projects via WAN connection
Designer-28746	Crash of E3 when trying to open an e3s file
Designer-28766	Pad shapes are not displayed anymore within the database editor 2016
Designer-28772	No ability to place symbols of the active connector pin terminal as device view
Designer-28781	Opening a Multiuser project takes very long
Designer-28782	After trying to create a connection to a connector and the subsequent appearance of an error message, further continue after confirmation of this message is not possible anymore
Designer-28825	Executing the command 'Autoconnect' leads to a program crash
